2. Soviet engineer troops were observed practicing on the Werra River. They assembled and later disassembled a pontoon bridge. They also constructed a footbridge on pneumatic rafts. A tank, a motorboat, several boats, a caterpillar tractor, a truck with hoisting gear, five amphibious cars and about 25 trucks [] were seen in the engineer training area. *
- 25X1 * [] Comment. This is the first report on the engineer training area at Mihla, about 12 km north of the Kindel troop training grounds. [] 25X1
